

Silver Expedition Training Framework

First Aid and Emergency Procedures

Training based on the current edition of the Authorised Manual of St. John Ambulance, St. Andrew's Ambulance Association or The British Red Cross.

- Action in an emergency – resuscitation, airway, breathing and circulation.
- Treatment of hypothermia
- The treatment of wounds and bleeding.
- Treatment for shock.
- The treatment of blisters, cuts, abrasions, minor burns and scalds, headaches, insect bites, sunburn, splinters.
- The recognition of more serious conditions such as sprains, dislocations and broken limbs.
- Knowing what to do in the case of an accident or emergency.
- Summoning help - what people need to know, telephoning for help, written message.
- Getting help, self-help and waiting for help to arrive, keeping safe and warm, helping people to find you.

An Awareness of Risk and Health and Safety Issues

- Expedition fitness.
- Telling people where you are going.
- Identifying and avoiding hazards.
- Keeping together.
- Weather forecasts - knowing how, where and when to obtain weather forecasts, relating weather forecasts to observed conditions, looking for signs which will indicate changes in the weather.

Navigation and Route Planning

The 1:25 000 scale Explorer Maps, available for the whole of England, Scotland, Wales and parts of Northern Ireland, should be used wherever possible as it makes instruction and learning easier. They show the field boundaries, making it easier to locate precisely the footpaths, tracks and lanes used for travel in this type of country. Participants should also be familiar with the 1:50 000 scale Landranger Maps.

Preparatory Map Skills

- The nature of maps.
- The use of 1:25 000 Explorer, 1:50 000 Landranger or the relevant maps in Northern Ireland and abroad.
- Map direction.
- Scale and distance, measuring distance, distance and time.
- Conventional signs.
- Marginal information.
- Grid references.
- A simple introduction to contours and gradient.
- The ability to give a verbal description of a route linking two places from the map.

Practical Map Skills

- Setting the map.
- Locating position from the map.
- Determining geographical direction and direction of travel from the map.
- Checking the direction of paths using the set map.

- Identifying features in the countryside by using the map.
- Locating features marked on the map in the countryside.
- Relating the map to the ground and estimating speed of travel and arrival times.
- Planning a route, preparing a simple route card.
- Following a planned route.

Compass Skills

Participants should be confident with a range of compass skills:

- The care of the compass.
- Direction from the compass in terms of the cardinal and the four intercardinal points.
- Measuring direction in degrees.
- Setting the map by the compass where magnetic variation may be ignored.
- Determining the direction of footpaths or direction of travel.
- Travelling on a bearing. Obtaining a grid bearing from the map, allowing for magnetic variation where appropriate.
- The influence of ferrous objects and electromagnetic fields.
- Magnetic variation and the relationship between True, Magnetic and Grid Norths.

Camp Craft Equipment and Hygiene

- Choosing suitable clothing, footwear and emergency equipment and knowing how to use it.
- Choosing and caring for camping gear.
- Packing a rucksack, waterproofing the contents, always keeping the weight down to a minimum, and about a quarter of the body weight when walking.
- Choosing a camp site, arrangements for water, cooking and sanitation, refuse disposal, fire precautions.
- Pitching and striking tents.

Food and Cooking

- Cooking and the use of stoves.
- Safety procedures and precautions which must be observed when using stoves and handling fuels.
- Cooking substantial meals under camp conditions.

Country, Highway and Water Sports Codes

- Understanding the spirit and content of the Countryside Code.
- The avoidance of noise and disturbance to rural communities.
- A thorough knowledge of the content of the Highway Code with special emphasis on specific modes of travel such as horse riding or cycling if they are to be utilised during the expedition.
- If undertaking a water expeditions, a thorough knowledge of the Water Sports Code.

Observation Recording and Presentations

- Developing observation skills and different methods of recording information.
- Skills relevant to the method of presentation.
- Choosing an aim.
- Researching relevant information.

Team-building

The Expedition section involves participants working together as a team in order to complete the expedition. Team-building should permeate all expedition training and can be enhanced through team building exercises and regular reviews so that when the team sets out on the qualifying expedition, participants are able to work together as an effective and cohesive unit.

Proficiency in the Mode of Travel

Cycling

- Training to the standard of the National Cycling Proficiency Scheme and the Right Track Awareness Programme as appropriate.
- Maintenance and repair of the cycle.
- Loading a cycle with equipment.
- Handling a loaded cycle.
- The skills associated with off-road cycling as appropriate.

Horse Riding

The horse riding expedition training syllabus is set out in the horse riding expeditions – additional training syllabus

Expedition on Water

Training should be directed towards the completion of a journey on water and not restricted to the skills of handling the craft. It must be concerned with any potential hazards associated with the water on which the venture will take place, as well as infections or health concerns related to any possible water pollution. Participants must be able to swim a distance of at least 25 metres in light clothing without any buoyancy aid and be competent and confident in the relevant capsizing and recovery drill and man overboard drill. All participants must:

- Wear appropriate buoyancy aids or lifejackets. Exceptions may be made, with the approval of the Operating Authority, for rowing expeditions on canals and rivers, and for sculling craft where traditionally, by custom and practice, life jackets are not usually worn, except on the instruction of the Cox.
- Wear suitable clothing and footwear.
- Be able to recognise and treat hypothermia.
- Understand the Water Sports Code.

All craft must have adequate buoyancy and be sound, suitable and fitted out for the conditions in which they are to be used. A suitable repair kit must be carried and participants should be trained in its use.

Canoeing

All participants must be adequately trained in the requirements for paddle expeditions.

Rowing

All participants must undergo training based on the syllabus for Boat work in the *Expedition Guide* or the training schemes of the Sea Cadets, Scouts or Girlguiding UK.

Sailing (sailing dinghies or keelboats)

For Silver level, all participants must attain proficiency to the standard of the RYA National Sailing Scheme Seamanship and Day Sailing.

Yachts

All participants must attain the RYA Day Skipper Shore Based and Practical Certificates or have an equivalent level of competence.
